

How to Setup

How To Use Ecsow Auto Dialer

1, Installing the Auto Dialer on a Dialing Computer

Download Ecsow Auto Dialer software and follow on-screen instructions to install Auto Dialer on a computer.

2, Configuring the phone service

Ecsow software can use several phone services: VOIP phone service (such as SkypeConnect, Vonage, Callcentric, any SIP trunk provider, etc); a PBX system with SIP extensions (such as Cisco, Avaya, Asterisk, etc). **(Note: Single line version also support Desktop of Skype.)**

Click Ecsow menu Tools > Options > SIP Account tab to input your SIP account information.

The screenshot shows the 'Options' dialog box with the 'SIP Account' tab selected. The dialog has a title bar with a globe icon and a close button. Below the title bar are several tabs: 'General', 'SIP Account', 'Do-Not-Call', 'Voice Activity Detection', 'Call Distribution', 'Call Transfer', 'Preset', and a scrollable area. The 'SIP Account' tab is active and contains the following fields:

- Account information from your SIP VoIP service provider**
 - Display Name:
 - SIP ID/User Name:
 - Domain:
 - Authorization User:
 - Password:
- Outbound Proxy**
 - Send outbound calls via:
 - Domain
 - Proxy
- Concurrent Calls**
 - Number of concurrent calls:
 - * SIP service must support multiple channels if you want to run concurrent calls

At the bottom of the dialog, there is a button labeled 'Advanced Settings' and two buttons: 'OK' and 'Cancel'.

How to Setup

It will show connected to the SIP service on Ecsow main window.

3, Import call list by click Ecsow menu Import > Import CSV File.

Click the menu Import > Import CSV file

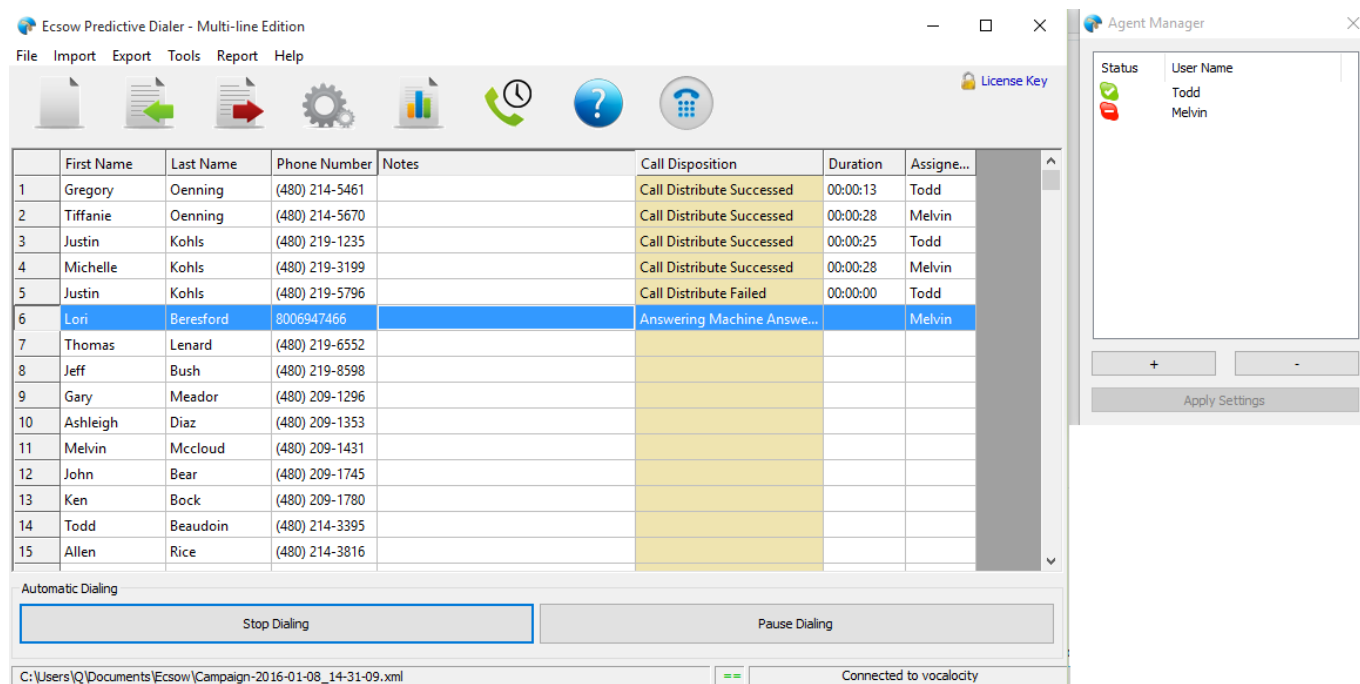

You will need to specify which of your columns from your call list will be placed on Predictive Dialer's "Name" and "Phone Number" columns.

How to Setup

4, Click the Start Dialing button to start the auto dialing.

How to Setup

Please note you need to specify 1 for US phone number, where 1 is the country code. You can set this at Ecsow menu Tools > Options > General tab.
