

# Use SIP Trunk / VoIP Phone Service

## How to config OnSIP for Ecsow Dialer / Voice Broadcast

Please login your onsip account, then click the "Administrators" tab > "Users" button, click the user to show the user information details as the below image shows.

The screenshot displays the OnSIP web interface. In the top right corner, the 'Administrators' tab is highlighted with a red box and the number '1'. In the left sidebar, the 'Users' option is highlighted with a red box and the number '2'. The main content area shows the configuration for user '\*BoZhi' (extension x7001, status 2 online). The 'PHONE SETTINGS' tab is highlighted with a red box and the number '3'. A modal window titled 'Options' is open, showing the following fields:

- Account information from your SIP VoIP service provider:
  - Display Name: bozhi@eurotech.onsip.com
  - SIP ID/User Name: bozhi
  - Domain: eurotech.onsip.com
  - Authorization User: eurotech
  - Password: [Redacted]
- Outbound Proxy:
  - Send outbound calls via:
    - Domain
    - Proxy: sip.onsip.com
- Concurrent Calls:
  - Number of concurrent calls: 1
  - \* SIP service must support multiple channels if you want to run concurrent calls

Unique solution ID: #1049
