

How to Setup

How to use the desktop of Skype to work with Ecsow dialer?

Notes: The desktop of Skype only support one line, and only supported by **Ecsow Auto Dialer - Single line edition**.

Once your installed Ecsow Auto Dialer - Single line Edition. Please click Ecsow menu Tools > Options > General tab to enable the "The desktop of Skype" option as below image shows.

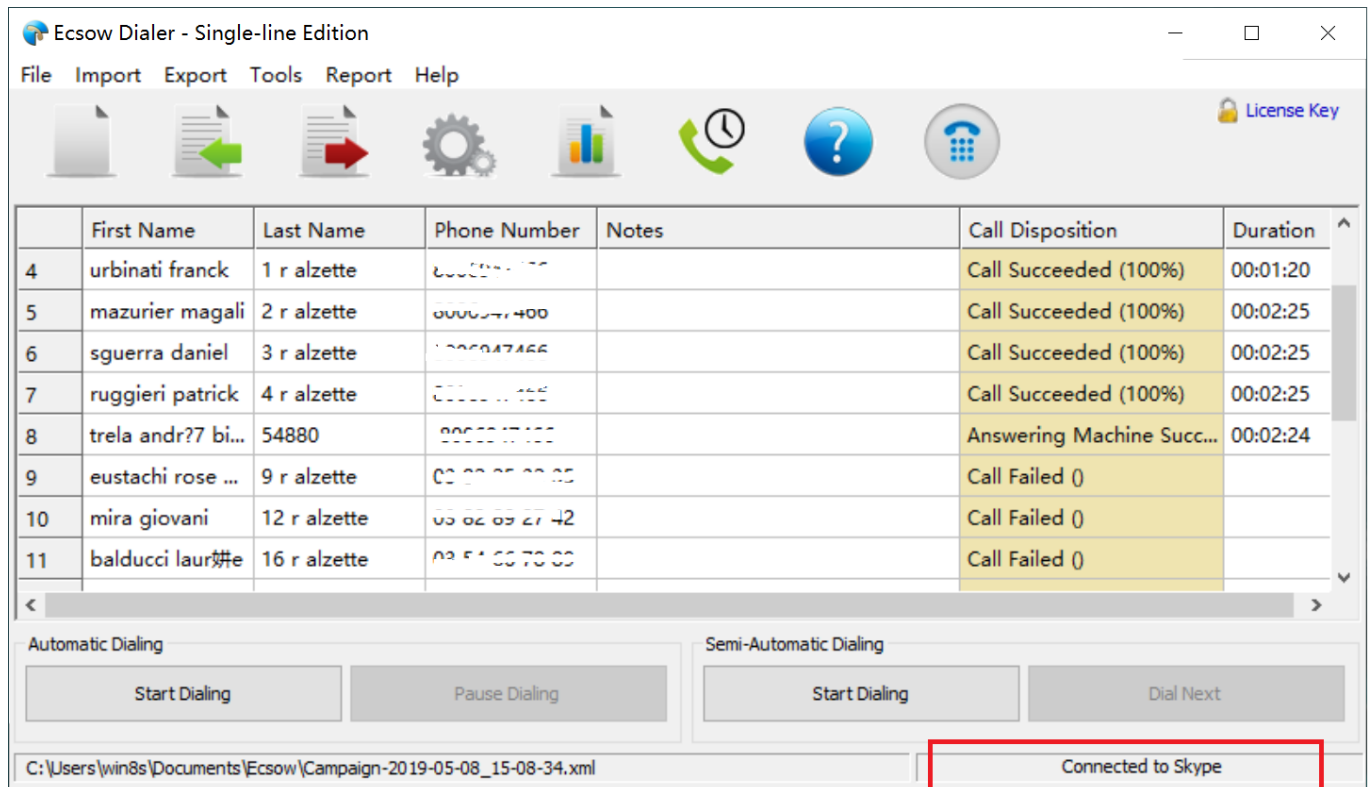

The screenshot shows the 'Options' dialog box with the 'General' tab selected. The 'Choose the phone service (VoIP service Provider)' section has two radio buttons: 'The SIP (VoIP) Service' and 'The desktop of Skype'. The 'The desktop of Skype' option is selected and highlighted with a red box. Below it, the text says 'It's easy to setup and the audio quality is excellent. You can use the Skype credit to make phone calls.' There is also a checked checkbox for 'Use Skype dial pad dialing out'. Below this section, there are fields for 'Country/Region code' (set to '+1'), 'Wait for answer (seconds)' (set to '35'), 'Maximum attempts' (set to '0'), and 'Pause seconds between calls' (set to '5'). The 'OK' and 'Cancel' buttons are at the bottom right.

auto dialing use Skype

It will show "Connected to Skype" status once it connect to your Skype as below image shows.

How to Setup

dialer connect to the Skype

Once it connected to your Skype, you can start dialing immediately.
