

# Use VoIP Phone Service

## How to config Callwithus on Ecsow Dialer

### Step 1, Getting the CallWithUs SIP Information.

Login your callwithus account and click the "VoIP Accounts" link to get your SIP account information.

You can create additional VOIP accounts if you need to connect more than one SIP client to our server. (

### Step 2, Fill in SIP Account on Ecsow Dialer.

# Use VoIP Phone Service

The screenshot shows a window titled 'Options' with a close button in the top right corner. The 'SIP Account' tab is selected, and the 'Account information from your SIP VoIP service provider' section is expanded. The fields are filled with the following values:

Field	Value
Display Name	Call Plan A
SIP ID/User Name	940420726
Domain	sip.callwithus.com
Authorization User	940420726
Password	••••••••

The 'Outbound Proxy' section is also expanded, showing 'Send outbound calls via:' with two radio buttons: 'Domain' (selected) and 'Proxy' (unselected). The 'Proxy' radio button is followed by an empty text input field.

The 'Concurrent Calls' section is expanded, showing 'Number of concurrent calls' with a text input field containing the value '1'. Below this, there is a note: '\* SIP service must support multiple channels if you want to run concurrent calls'.

At the bottom of the dialog, there is a button labeled 'Advanced Settings'. At the very bottom right, there are 'OK' and 'Cancel' buttons.

Click the OK button to apply the settings.
